### LYODRY LSCC10 - 10-TRAY FREEZE DRYER CHAMBER SUITABLE FOR USE WITH LYODRY MIDI AND

LYODRY MIDI PRO FREEZE DRYERS

LSCC10 is a stainless steel freeze dryer chamber, with 10 removable trays, providing a total drying area of 1.5m<sup>2</sup>.

Each individual tray measures 450mm wide x 345mm deep. The gap between tray support rails is 85mm.

Fitted with single viewport for product viewing, the chamber is available unheated (part no LSCC10) as standard, or with optional heating (part no LSCC10H).

The chamber is suitable for use with <u>LyoDry Midi</u> or the enhanced <u>LyoDry Midi Pro</u> freeze dryers. If the heated version (part no LSCC10H) is used with the LyoDry Midi Pro freeze dryer condenser, then multiple profiles (freeze drying 'recipes') can be created.

LSCC10 chamber can also be retro-fitted to an Edwards SuperModulyo Freeze Dryer Condenser.

For enhanced freeze drying and future-proofing, LSCC10 chamber can also be equipped with optional manifold ports, with removable neoprene vacuum isolation valves (3/4" ID), to enable freeze drying in flasks.

# TECHNICAL VACUUM EXCELLENCE SINCE 2008 If the heated version is used with the LyoDry Midi Pro freeze dryer, then multiple profiles can be created
